[01 / VISION]

Immersive hands-on design learning in the heart of Delhi.

The Design Summer School (DSS), organized by the Human-Centered Design (HCD) Association of IIIT Delhi, offers a series of interactive, expert-led workshops on design and related fields, including Human-Centered AI, Sensing, character sketching, photography, and XR/AR/VR design.

Curated for students, professionals, and design enthusiasts, this program provides a premium hands-on learning opportunity to build design solutions for real-world problems. Prepare for expert mentoring, high-impact tutorials, and networking with the brightest creative minds in Summer 2026.

[02 / RETROSPECTIVE]

DSS Legacy & Moments.

A visual retrospective of the creative energy from previous Design Summer School editions. Through hands-on making, peer review, and interactive installations, participants transformed concepts into tangible realities.

Sensing Arts & BCI Interfaces

A futuristic workshop combining interactive arts and cognitive computing. Highlights included a live Brain-Computer Interface (BCI) demo by Dr. Priyanka Jain (C-DAC) and TouchDesigner projection mapping led by Dr. Gowdham Prabhakar.

KEY HIGHLIGHTS:

EEG sensing trials, real-time audio-reactive visuals, projection mapping
